

Product Sheet

Mouse IL-22 Protein; mFc Tag

GM-89067RP-100 / 100 µg

GM-89067RP-1000 / 1 mg

Product Information

Product Name	Mouse IL-22 Protein; mFc Tag
Source	Mouse IL-22 Protein; mFc Tag (GM-89067RP) is expressed from human 293 cells (HEK-293). It contains AA Leu 34 - Val 179 (Accession # Q9JJY9). This protein carries a mFc tag at the C-terminus.
Predicted MW	43.0 kDa
Purity	> 90% as determined by SDS-PAGE
Endotoxin	< 1 EU/µg, determined by LAL gel clotting assay
Formulation	Liquid; Supplied as a 0.2 µm filtered solution of PBS, pH 7.2–7.4.
Storage	Store at ≤ -70°C, stable for 6 months after receipt. Recommend to aliquot the protein into smaller quantities for optimal storage. Please minimize freeze-thaw cycles.
Shipping	Shipped on dry ice.
Synonyms	IL22, IL-TIF, ZCYTO18
Background	IL-22 (Interleukin-22) is a cytokine secreted by immune cells, belonging to the family of cytokines produced by γδT cells, TC17 cells, and helper T cells. It mainly acts on epithelial cells, promoting tissue repair and regeneration, enhancing local immune defenses, and playing an important role in antimicrobial and antiviral responses. IL-22 binds to its receptor to activate intracellular signaling pathways, regulating immune responses and inflammation processes. In addition to its role in immune regulation, IL-22 is also involved in the development of various diseases, including autoimmune diseases, chronic inflammation, and certain types of cancer. IL-22's structure features characteristic protein domains that ensure its binding to specific receptors and signal transduction, allowing it to exert multiple protective and regulatory effects within the immune system.

Version 4.0.26.924

Data

Biological Activity

Mouse IL-22 Protein; mFc Tag (Catalog # GM-89067RP) was added into H_IL22 Reporter 293 Cell Line (Catalog # GM-C19682) and stimulates related signals.

Purity

On SDS-PAGE under reducing (R) condition. The gel was stained overnight with Coomassie Blue. The purity of the protein is greater than 90%.
